# ICE CREAM SHOP

## DESIGN HIGHLIGHT

The project stems from the desire of a historic family of gelato makers to renew themselves **without losing their identity**. The gelateria becomes a **neighborhood landmark**: a welcoming, contemporary space that blends **tradition** and **innovation**.

Authentic materials such as **wood** and **stone** interact with **clean lines** and colors inspired by the **natural tones of gelato**, enriched with vibrant accents. Large windows open the space to the street, transforming it into a neighborhood **"piazza,"** a place for **connection and conviviality**.

A restyling that is not merely aesthetic, but a **manifesto of identity**: strong roots, with an eye toward the future.

## VIRTUAL TOUR

Discover our virtual environments: **explore in 3D the spaces designed for you**, experience immersive engagement, and make confident decisions. **Find the right inspiration** to create a tailor-made, innovative, and unique venue.

Virtual Tour

## MOODBOARD

The gelateria's design blends **sophistication** and **functionality**. **Neutral tones** and **glossy surfaces** create a bright, inviting atmosphere, while **golden details** and **geometric lines** evoke a **classic elegance** reinterpreted in a contemporary key. Suspended globe lights add a refined touch, harmonizing with the **wood** and **stone** counter that serves as the visual centerpiece of the space. A welcoming yet distinctive environment, designed to transform a simple gelato break into a **stylish experience**.

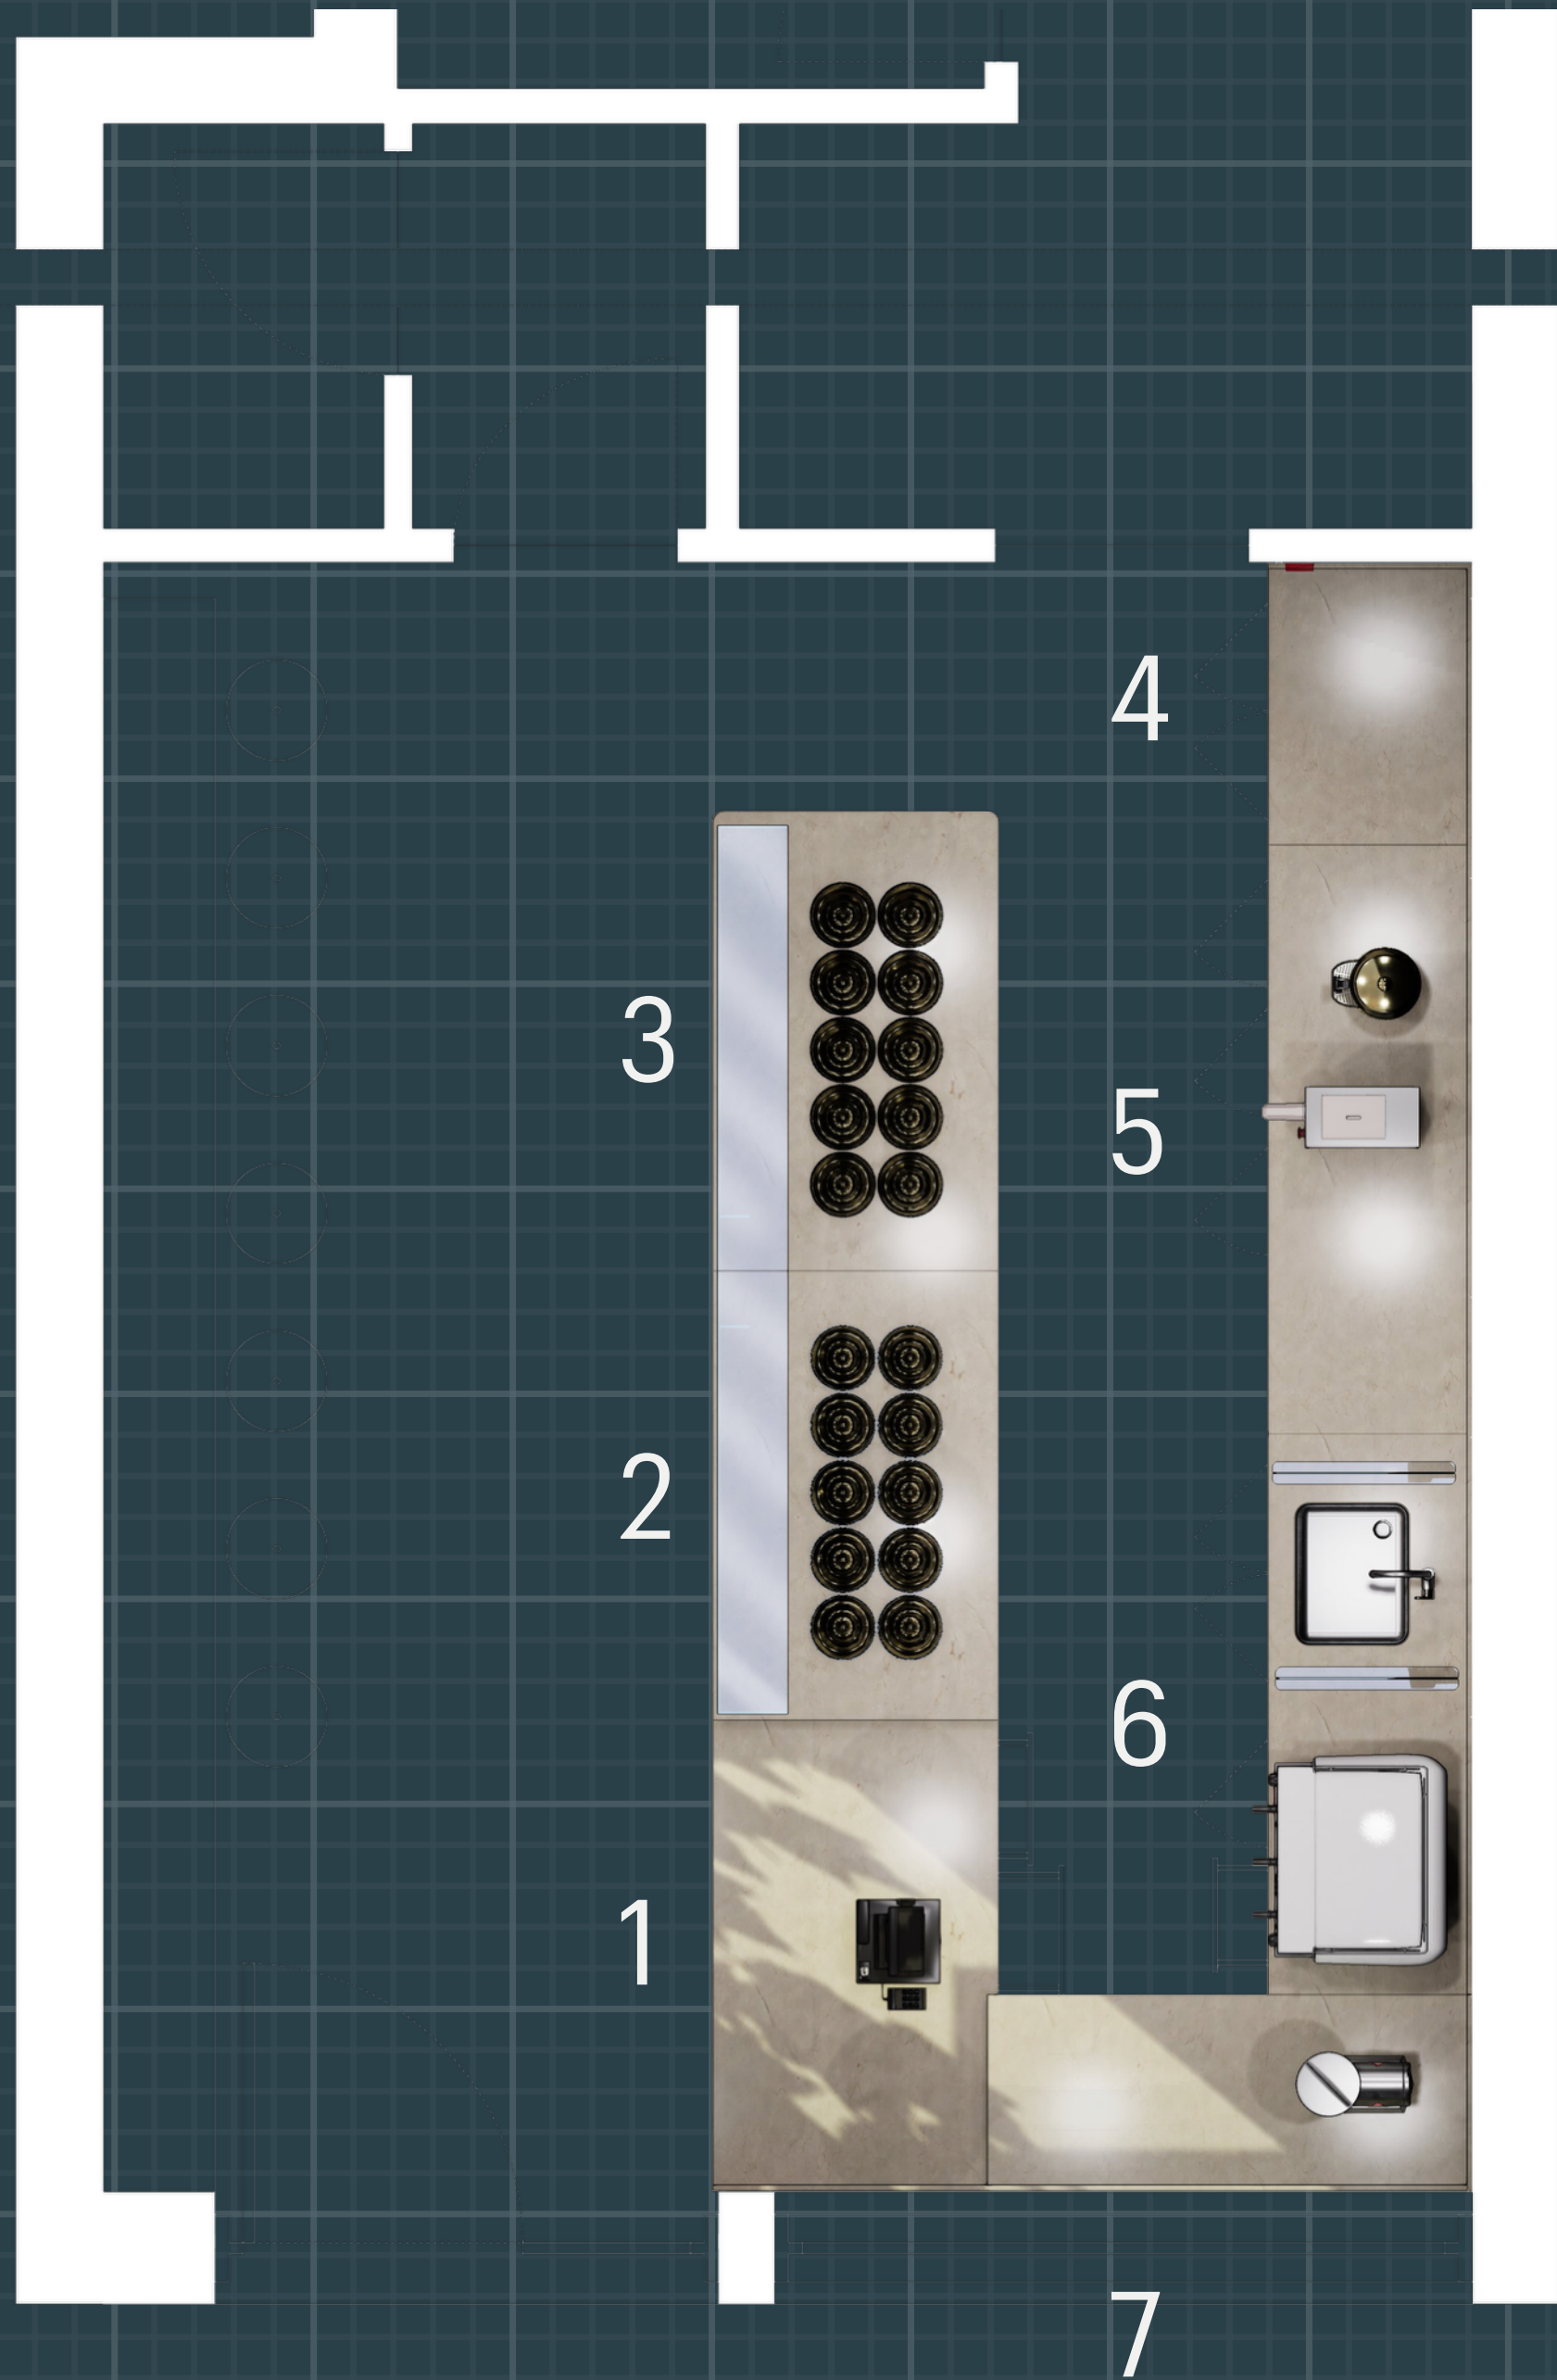

## FLOOR PLAN

The project aims to keep the gelateria as a **true community hub**, a real point of reference **for the neighborhood**. The **interior layout** prioritizes **simplicity and functionality**, with a large central counter that facilitates service and encourages guests to stay. **Seating along the walls** optimizes space, ensuring **smooth circulation**.

The key element is the **connection to the exterior**: **large windows** create continuity between the interior and the street, flooding the space with natural light and inviting passersby inside. Outside, a **furnished area** with tables and chairs becomes a small **“urban piazza”**, a **natural extension** of the venue designed for **convivial moments** in the open air and to strengthen ties with **neighborhood life**.

## FURNITURE LIST

### Furniture list - front counters:

- 1-Checkout counter
- 2-Pozzetti Counter 10 flavors
- 3-Pozzetti Counter 10 flavors

### Furniture list - back counters:

- 4-Neutral Back counter
- 5-Back counter Three doors refrigerated
- 6-Back counter Coffee machine and Sink
- 7-Neutral back counter corner

## 1 - CHECKOUT COUNTER

- Stainless steel frame
- 1 Stainless steel drawer
- 2 Stainless steel shelves
- Front panels made galvanized steel
- Plinth coated made galvanized steel
- Coated frames
- 3M Di-Noc Wood finishes

The checkout counter, with a **fully stainless steel frame**, is designed to ensure efficiency and organization in any operational setting. Equipped with **large stainless steel drawers and shelf**, it offers a durable, hygienic, and functional solution for space management. The Silestone® Cosentino surface guarantees long-lasting performance and easy cleaning, while the **front panels**, made of powder-coated galvanized steel with **high-resistance finishes**, complete the structure by combining strength with essential aesthetics.

## 2 - POZZETTI COUNTERS

- Stainless steel frame
- 1 Stainless steel drawer
- 10 golden tubs 24-carat
- Front panels made galvanized steel
- Plinth coated made galvanized steel
- compressor unit
- Coated frames
- 3M Di-Noc Wood finishes

The **pozzetti counter with glycol refrigeration system**, developed by Tekneitalia over 15 years ago, is a reliable and efficient solution for gelato preservation. Thanks to the high performance of its refrigeration circuit, it ensures low energy consumption and constant temperature control, making it ideal for overnight storage without compromising product quality.

With a **load capacity of 100 kg**, it features a **professional control system** for precise temperature management and **integrated refrigeration units**. The **Silestone® Cosentino** surface guarantees durability and easy cleaning, while the front panels in **painted galvanized steel** with high-resistance finishes complete the structure, combining robustness with essential aesthetics.

## 6 - BACK COUNTER COFFEE MACHINE

- Stainless steel frame
- 3 Stainless steel Cabinet doors
- 2 Stainless steel shelves
- Stainless steel sink and tap
- 2 coffee drawer
- Plinth coated made galvanized steel

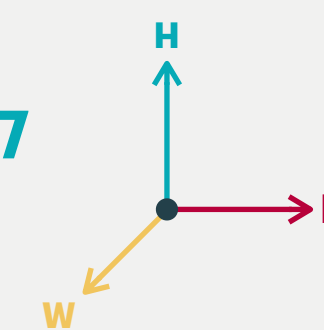

The coffee machine back counter, made entirely of stainless steel with a stainless steel door, is designed to ensure durability, hygiene, and everyday practicality. Equipped with **two hoppers for coffee preparation**, it offers an efficient and functional solution for industry professionals.

The professional **sink unit**, with a **fully stainless steel frame and doors**, is designed to ensure durability and functionality in demanding work environments. Equipped with a **large sink** and **professional faucet**, it combines practicality and ease of use while remaining **elegant and visually appealing to the public**. The **Silestone® Cosentino** surfaces ensure long-lasting performance, easy cleaning, and a refined look—ideal even for areas visible to customers.

## I RIVESTIMENTI: I PIANI

# silestone®

By COSENTINO®

A leading brand for over 30 years that inspires designs for kitchens, bathrooms and commerciale surfaces.

**25 Years warranty**  
Hybrid mineral surfaces to create innovative spaces that endure over the time.

### Advantages and properties

**Elevata resistenza ai graffi**  
l'uso e l'usura quotidiana non graffiano Silestone.

**Elevata resistenza alle macchie**  
La bassa porosità li rende altamente resistenti alle macchie.

**Alta resistenza agli urti**  
Altamente resistente agli impatti quotidiani.

**Elevata resistenza agli acidi**  
La bassa porosità gli impedisce di essere danneggiato da macchie aggressive.

### Finish

**Polished**  
More vibrant and intense colors and reflections

**Suede**  
Soft and pleasant feel with full color consistency

**Mate**  
Solid and satin color

**Velvet**

# 3M

# DI-NOC™

**3M™ DI-NOC™ Architectural** E-Series PO Polyolefin Film are film surface finishes that give you a range of choices as you pursue your sustainability goals. These films are made with approximately 99.5% non-PVC (non-vinyl) materials, and do not contain more than 0.5% of a polyvinyl chloride-based component. **These finishes are available in various patterns and textures – wood, plaster, concrete and more, and are a great way to upgrade your interior look without all the disruption.** 3M™ Comply™ Adhesive technology virtually eliminates air bubbles, simplifying and speeding up the application process.

**Catalogue 3M Di - NOC**

## TOTAL CUSTOMIZATION

With TekneItalia, every piece of furniture becomes a **unique expression of your brand**. **Integrated “under-surface” digital graphics, stencil techniques, and glossy or matte finishes are just some of the available options.** Thousands of combinations of materials, colors, and details allow you to create truly tailor-made solutions, with no limits to customization.

## PROMINENT DETAILS

**Laser-engraved details add depth and personality to the furniture**, with the option to be painted or finished with an elegant 24-carat gold plating. **Custom-made**, these exclusive elements transform any space, making your venue unique and **instantly recognizable**.

THIS IS A **TEKNEITALIA**® PROJECT

**Tekneitalia** is a company founded **over 15 years ago** with the clear and ambitious goal of revolutionizing the way business is done in the HO.RE.CA. sector. Through **carts and mobile devices with iconic and highly recognizable design**, we have made **beauty a tool for work**. From day one, our mission has been to offer clients **not only functional tools but true extensions of their identity**: objects capable of expressing **values, emotions**, and visions through a refined and **timeless aesthetic**.
